

I am greatly distressed that the FCC is considering taking K-Love off the air. If not for the high standard and uplifting music that K-Love encourages during these turbulent times God knows where our society will end up. My sister life is a direct result of k-love's positive and encouragement music spoken into her life. Had it not been for them she would probably not be the person she has become. My hope is that you will continue to allow K-Love to keep it's airwave so that they may reach those who are seeking the treasures of heaven on earth.
